# Auditing and the prevention and detection of crime.

## We may audit the records of medical practitioners and hospitals to:

- Ensure that we are being correctly billed for their services;
- Prevent and detect crime, particularly fraud; or
- Review the performance of specialists.

Audits may be part of a programme or in response to a specific circumstance and may involve reviewing customers' medical records held by the person or organisation being audited.

We may need to share information that we receive with third parties. This includes medical experts, other insurers, the NHS Counter Fraud Security Management Service and the General Medical Council. We are required by law, in certain circumstances, to disclose information to law enforcement agencies about suspicions of fraudulent claims and other crimes.

This may involve adding non-medical information to a database that will be viewed by other insurers and law enforcement agencies. We are required to notify the General Medical Council or other relevant regulatory body about any issue where we have reason to believe a medical provider's fitness to practice may be impaired.
