

Medical Information for Americans Traveling Abroad*

Reasons to say, "I Travel Insured!"

- Payment of hospital and other expenses is the responsibility of the traveler.
- Medicare and Medicaid do not provide coverage outside the U.S.
- Very few health insurance companies will pay for your medical evacuation back to the United States.
- Medical evacuation can easily cost \$10,000 and up.

Medical costs abroad can be extremely expensive. Does your domestic insurance cover medical evacuation, payment to the overseas hospital or doctor, or reimbursement to you later? Payment of hospital and other

expenses is the responsibility of the traveler.

Before going abroad, learn what medical services your health insurance will cover overseas. If your health insurance policy provides coverage outside the United States, REMEMBER to carry both your insurance policy identity card as proof of such insurance and a claim form. Although many health insurance companies will pay "customary and reasonable" hospital costs abroad, very few will pay for your medical evacuation back to the United States. Medical evacuation can easily cost \$10,000 and up, depending on your location and medical condition.

THE SOCIAL SECURITY MEDICARE PROGRAM DOES NOT PROVIDE COVERAGE FOR HOSPITAL OR MEDICAL COSTS OUTSIDE THE U.S.A.
